NOMULA AKHILA

Data Analyst

akhilanomula117@gmail.com | +91-9666829636 | Hyderabad, Telangana | https://www.linkedin.com/in/nomula-akhila127 | https://github.com/Nomula-Akhila127

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with a Computer Science Engineering background, skilled in transforming raw data into actionable business insights. Proficient in SQL (window functions, CTEs, stored procedures), Power BI (DAX, Power Query), Python (Pandas, NumPy, Matplotlib), and Excel. Delivered end-to-end dashboards, automated reporting workflows, and data-driven KPIs across retail and banking domains. Strong communicator committed to enabling data-informed decision-making.

TECHNICAL SKILLS

Languages & Libraries: Python (Pandas, NumPy, Matplotlib) | SQL (JOINs, CTEs, Subqueries, Window Functions, Stored Procedures)
BI & Visualisation: Microsoft Power BI (DAX, Power Query) | Microsoft Excel (Pivot Tables, VLOOKUP, Power Query, MOS Certified)
Databases: Microsoft SQL Server | MySQL
Tools & Platforms: Jira | Supabase | GitHub | Google Sheets
Concepts: Data Cleaning & Transformation | Data Modelling | KPI Development | Dashboard Design | ETL Processes | Reporting Automation
Soft Skills: Stakeholder Communication | Analytical Thinking | Attention to Detail | Time Management | Cross-functional Collaboration | Reporting & Documentation

PROJECTS

Blinkit Sales Performance Dashboard | Power BI | DAX | Power Query

- Architected an interactive Power BI dashboard to analyse 1,000+ grocery sales records across outlet types, sizes, and locations, enabling outlet-level performance comparisons at a glance.
- Authored DAX measures to derive business KPIs - Total Sales ($1M), Average Sales ($141), Item Count (7,060), and Average Rating (3.9) - supporting data-informed merchandising decisions.
- Streamlined data preparation using Power Query (cleansing, transformation, and modelling), improving dashboard accuracy and reducing manual reporting effort.
- Designed slicers and trend visualisations that surfaced top-performing products and outlet insights, translating complex data into clear, actionable recommendations for stakeholders.

Retail Sales Dashboard | Power BI | DAX | Power Query

- Built a multi-dimensional retail sales dashboard in Power BI analysing sales, profit, transactions, and returns across products and regions from 170+ transactions.
- Engineered KPIs, maps, charts, and revenue-target trackers using DAX and Power Query, enabling real-time performance monitoring across business units.
- Consolidated multiple datasets into a unified data model, reducing manual analysis time by 40% and eliminating redundant reporting steps.
- Delivered clear visual narratives - trend lines, region maps, and product breakdowns - translating raw figures into strategic insights for business stakeholders.

Indian Bank Management System | SQL | Microsoft SQL Server

- Designed and implemented a relational banking database in Microsoft SQL Server, including tables, views, constraints (PK, FK, UNIQUE, CHECK), and triggers to enforce data integrity.
- Authored complex SQL queries using JOINs, CTEs, subqueries, and window functions to generate transaction, deposit, and withdrawal reports.
- Developed stored procedures for automated bank statement generation, reducing manual query turnaround and standardising reporting output.

INTERNSHIP EXPERIENCE

Data Analyst Intern | Lavera Labs Private Limited, Hyderabad (Remote) | Aug 2026 – Present

- Completed a large-scale scraping task, collecting and structuring 62,000+ records from a government platform, and am currently collecting approximately 4,350+ records (ongoing) on a second task; cleaned and standardised the data before maintaining it in Supabase as the team's backend data store.
- Built Power BI dashboards on the scraped and cleaned data to support the team's reporting and analysis needs.
- Manage and track tasks using Jira within an agile workflow, completing an average of 2 tickets per week, and collaborate cross-functionally through daily Webex stand-ups and async communication over Outlook.

Data Analytics Intern Trainee | Salween Technologies, Hyderabad | Jan 2026 – Apr 2026

- Completed a hands-on internship in the Data Analytics Department, applying data cleaning, organisation, and preliminary analysis techniques to real business datasets under professional guidance.
- Recognised by leadership for being regular, hardworking, a quick learner, and sincere throughout the internship tenure.

Deloitte Data Analytics Job Simulation (Forage) | Jan 2026 – Feb 2026

- Applied data analysis techniques to real-world business scenarios, interpreting datasets to identify patterns and support findings.
- Practised forensic data investigation tasks - examining data quality, flagging anomalies, and summarising insights in structured reports.

EDUCATION

B.Tech – Computer Science S Engineering | Aurora's Technological S Research Institute | 2022 – 2026 | CGPA: 8.2

CERTIFICATIONS

- Microsoft Office Specialist – Excel Associate (Microsoft 365) | Sept 2025
- SQL and Relational Databases – IBM | Aug 2024
- Data Analysis Using Python – IBM | Aug 2024
- Python for Beginners – Simplilearn | Sept 2024

LEADERSHIP & VOLUNTEERING

Event Coordinator – BOREALIS Tech Fest (College's Biggest Tech Event) | June 2025

- Led end-to-end logistics coordination and cross-team collaboration for the largest annual tech festival, ensuring successful execution of all activities.

Class Representative (CR) | Aurora's Technological G Research Institute | 2022 – 2026

- Served as the Class Representative (CR) from 1st year to final year, acting as a bridge between faculty and students and contributing to smooth academic coordination. Received a certificate of appreciation for leadership and responsibility.
- Coordinated with faculty and student teams to address academic concerns, schedule updates, and event-related communications effectively.
